

ONE YEAR OF WAR IN NUMBERS

Since Hamas' assault on southern Israel on 7 October 2023, Israeli territory and interests have been targeted from multiple fronts. This includes at least **2,597 incidents of missile, rocket, and drone attacks** by Gaza-based Hamas and allies, Lebanon's Hezbollah, and Iran's Islamic Revolutionary Guard Corps (IRGC).

In turn, the **Israeli security forces have conducted 22,320 attacks** across Gaza and Lebanon, as well as in Syria.

Note: The data visualizations and data points in this key figures report reflect events recorded in the **ACLED dataset from 7 October 2023 to 6 October 2024**. The figures on the estimated population exposed to conflict are from ACLED's Conflict Exposure Tool. ACLED is a living **dataset and figures are subject to change** as new information becomes available. Datapoints attributed to the Israel Defense Forces (IDF) are based on Israel's official reports.

ACLED
